

Vessel Vanguard[®] PRO

In January, Baxter Marine Group's acquisition of Vessel Vanguard, WheelHouse Technologies, and SeaKits created a ripple effect within the marine industry. Since the acquisition, our company has been rapidly investing time, resources, energy, and capital into creating the most robust software solution on the market for marine maintenance management.

It is with great pleasure and distinction that we would like to announce our new vision for redefining the industry standard: **Vessel Vanguard** and **Vessel Vanguard PRO**, *formerly known as WheelHouse*. Our combined offerings will cater to the ever-changing needs of our customers managing operations of every size, from recreational yachts to commercial fleets.

With the launch of the all-new Vessel Vanguard PRO, we are seeking to revolutionize the marine maintenance industry, providing you and your customers with the most comprehensive, industry-best marine maintenance solution on the market. Our team has been hard at work, building upon what's come before, to deliver new features and functionality that ensures a top-of-the-line solution for all your maintenance, inventory, and safety needs.

So, what's changing?

Aside from our new brand name, we will be offering a variety of upgrades, from a brand-new look to brand-new features. The Vessel Vanguard PRO platform will transform how you manage your vessel or fleet. New features include:

- Intuitive User Interface and Dashboard
- Color-Coded Maintenance Prioritization
- "Quick Click" Access to All Functions
- Custom Forms & Checklists
- Robust Reporting Suite
- Maintenance Cost Tracking & Trending
- Captain's Report for Individual Vessels
- Role-Based Access for Individual Vessels

... and more!

Prior to the launch, we will be sending out more detailed information about the all-new features and functionality, as well as a comprehensive set of resources from training webinars to a full document library.

We are excited to continue our mission of innovation and excellence and look forward to hearing from you.

WE ARE
